RAF/106G/UK/628	NT 9393	10/08/1945	Various vertical views of Elsdon and its extensive medieval field systems Elsdon and its surrounding area must be virually unique in that the medieval landscape is almost perfectly preserved, fossilised around the village. The importance of this landscape in its entirety far outweighs the importance of any single monument or building within it	3322	N/A	N/A	N/A	N
