

Paragraph Number changes

In the Appendix (Main Modifications) to the Inspector's Report for the Northumberland National Park Local Plan, several paragraph numbers have been used to make reference to the changes recommended for the Local Plan.

As part of a minor modification to update the formatting and design of the document ready for adoption, some of these paragraph numbers have since changed. The table below shows the paragraph numbers used by the Inspector against the new paragraph numbers, to help locate the modifications in the document:
